

**Q: WHAT IS THE APPROVED HOSE ASSEMBLIES? AND WHAT DOES IT MEAN?**

**A:** Those who are awarded the 'Q' mark must maintain the standards which resulted in their membership of the scheme. The 'Q' mark must not be seen as a quality certificate or guarantee of the hose assembly itself. It is an acknowledgement that the hoses are manufactured by a company who has met or exceeded the requirements of the BFPDA inspection team. It is a mark of pride awarded only to the best in their manufacturing field.

Completely Hydraulic LTD is committed to maintaining a high standard within the industry and will never compromise their level of professionalism.
